That's what I think too, better if we can both go.

Sounds like he is thinking just he and Thanne and one of us will go. Would be better if we could both go. We will have to see if there is some way to make that happen.

Ivan and Laurie,

You had asked about travel plans. Enforcement anticipates that Janet or I may need to make another trip to Arizona to meet with representatives from Hopi villages and the Hopi Tribe. The trip would be in early July (see Roberto's email below). No details have been worked out yet. We will keep you informed.

Kimby

I talked to Hillary about this last week and I currently have a VM into Lionel's inbox. I haven't heard a peep and I'm a little concerned. I also recommended to Thanne that she, perhaps you or Janet, and I take a trip to Hopi to further discuss this case and work and talk separately w/Ivan. I'm guessing we would go out in early July after the 4th. What do you guys think?

Hillary, Patrick, and Roberto,

Have you heard anything more from Hopi?

It was my understanding that the villages met at the end of April and were going to get back to us about how they want to proceed with addressing their drinking water violations in the long term and whether they will work with the Tribe or work independently.

Ex. 5 Attorney Client (AC)

Please let Janet and I know the status of the villages and what the next steps are.

Thank you,

Kimby

Hello Lionel,

Thanks for meeting with our team this past Wednesday. We very much appreciated the updates you provided to the group regarding the Tribe's progress on working with the Villages and developing the HAMP schedule. Per the meeting, you noted that by the end of May 2017 the Tribe should have a more definitive schedule on the construction and completion of the HAMP. You also noted that the Tribe continues to work with the Villages to potentially enter into MOUs to allow the Tribe act on behalf of the Villages (perhaps 3 of the 4 Villages). Please continue to keep us informed on any progress related to this work and feel free to contact me if you have any questions/concerns.

Thanks again.
